Objective

I am seeking an entry-level position in the field of software development. I would like a position which will challenge me intellectually and help me further develop my subject-matter expertise. I'd love to work for a company that will push me to reach my full potential, while also supporting the company's growth and success.

Technical Skills

- HTML
- CSS
- JavaScript

Work Experience

Surf Coach, SurfEnds, 2017-2021 (Part-time)

- Marketing of new business
- Surf Coach

In instructing surf lessons, I have been exposed to many pressure-filled scenarios whereby I had to remain calm and handle the situation professionally. From this, I have learnt a key skill in working under pressure, therefore allowing me to reach timeously deadlines with ease and efficiency, without effecting the quality of my workmanship.

Warehouse Manager, Tean Distributions, 2017-2021 (Part-time)

- Managed Store Content
- Physical labour

While completing my marketing degree and working at SurfEnds, I worked as a warehouse manager at Tean Distributions. From working this job, I learned valuable multitasking abilities, as well as the most effective way in which to organize my time in order to reach my targets. This position helped refine my human resourcing, client communication, and general managing abilities.

English Teacher, English Plaza, 2022-2023 (Part-time)

- Teaching English to Japanese

Teaching English to people who do not know the English Language can be challenging. From this experience, I learnt the ability to swiftly adapt in uncomfortable situations and deal with significant communication barriers in a polite and respectable way. In future circumstances, I can successfully communicate with my team.

Projects

Demo Website

A fake front end website for an app that connects people to interior design companies

Technologies used: HTML, CSS, Bootstrap

[Interiored](#)

Memory Game

A memory game that is based on the Simon's board game
